A New Generation of Cutting Tool Technology

Slotting cutter

for machining coil slots.
Combination rough, semi-finish or dedicated finishing of generator rotor slotters. Tangentially mounted inserts with a unique shape to provide both RH and LH cutting edges on the same insert. Reduces carbide inventory and eliminates possibility of incorrect insert loading.

Ø1000 mm

Ø500 mm

Slotting cutter

for machining flex slots.
Positive rake angle inserts and special cutting form improves chip evacuation from deep, thin slots.
